

## Description

3-piston reciprocating pumps for use on cleaning units and industrial systems requiring a higher level of protection against corrosion and oxidation." Pump body, end plate and side covers in die-cast aluminium with protective electro-phoresis coating. Head machined from solid AISI 316L steel block for resistance to saline and acid environments. Pistons driven by crank-connecting rod mechanism. Connecting rods in die-cast special low-friction zinc-aluminium alloy. Double gasket sealing system to minimise any water leaks. Shaft in heat-treated pressed steel for excellent mechanical strength. Oversized friction bearings. One-piece ceramic pistons.

Details	Value
Category	Stainless Steel
Series	252 - XWL-SS
Pump type	XWL-SS 42.05 N
Versioning	N
ARCode	21468
Output (lt/min)	42
Output (gpm)	11.09
Pressure (bar)	50
Pressure (psi)	725
Power (hp)	5.5
Power (kw)	4
RPM	1450
Weight (kg)	18
