

Description

Compact wobble-plate pump for use on both horizontal and vertical-operating internal combustion engine DIY high pressure cleaners.

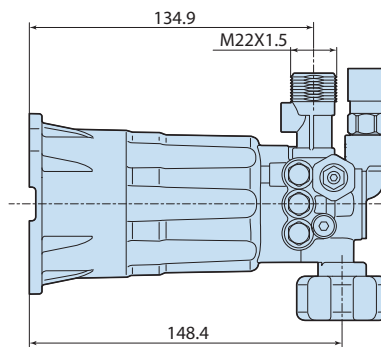

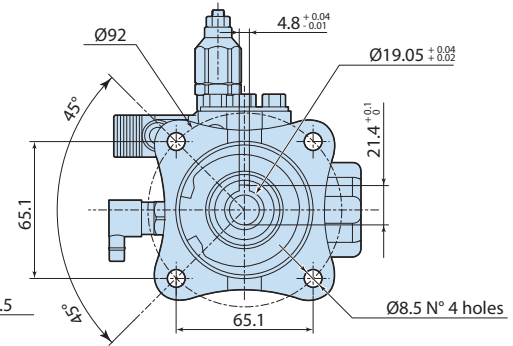

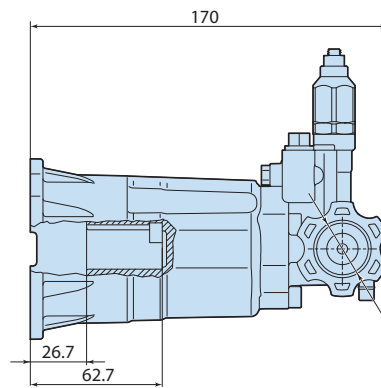

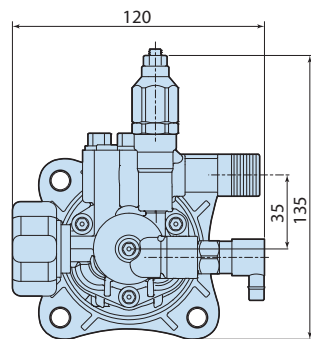

The pump body and head are in high-strength aluminium alloy, both to achieve impressive performance for pumps in this class and to keep costs down.

The wobble plate is also in aluminium alloy with a special wear-resistant coating, to ensure trouble-free operation with internal combustion engines.

Internal components are oversized and able to guarantee excellent reliability even in heavy-duty conditions.

Details	Value
Category	Cleaning wobble plate
Series	382 - RPV
Pump type	RPV 2 G 19 D
Versioning	D
ARCode	24965
Output (lt/min)	7,6
Output (gpm)	2
Pressure (bar)	130
Pressure (psi)	1900
Power (hp)	2,7
Power (kw)	2
RPM	3400
Weight (kg)	2,5
